Bear Clique and the Money Situation Together Unsettle Speculative Sentiment-A Fair Local Trade.

At New York yesterday money on call was Sterling exchange was very weak, with actual siness in bankers' bills at \$4.83%@4.84 for demand and \$4.80@4.80% for sixty days; posted rates, \$4.8114@4.82 and \$4.8514@4.86; commercial

don was 29 11-16d an ounce. Trading on the New York Stock Exchange yesterday was marked by a revival of a considerable bear party, whose activities were aggressive and persistent. Their efforts to depress prices The marked depletion of banking reserves, revealed by the Saturday bank statement, had the o! relief by imports of gold. The conviction become pretty well settled, as the day progressed that gold would move from London towards New York this week. The market for foreign exchange fell feverishly by successive stages a full cent on the pound below Friday's level, price of gold and rate for money in London, and robably is within the limit that would allow the special transactions which generally preced a regular gold movement in a straggling fashion. Owing to the temporary abundance of money in ations and receipts of gold from India, in pay-ment for silver, discount rates continue to fall The small movement of gold from London to Berlin yesterday was in response to the trans-fers of sterling from New York to Berlin, which have progressed in connection with payment of subscriptions to the German loan. A member the German loan syndicate broadly intimated hat requirements for exchange in payment of abscriptions to the loan were about satisfied, and expressed the opinion that the same was rue in connection with the British loan. There was an appreciable narrowing of the money sup-ply offering in New York. The prevailing rate held at 3 per cent. for call loans, and ran up to

12 per cent, during the afternoon, but the higher rate brought out an abundant supply to fill the small remaining requirements, and the rate ran

off to 214 per cent. The interior movement of

off to 2½ per cent. The interior movement of currency continues unabated, and the deposits at the subtreasury alone yesterday for transfer to the interior foot up three-quarters of a million dollars. With the exception of a period of strength in the iron and steel stocks, led by Tennessee Coal and Colorado Fuel, the reactionary tendency is predominant, and the leading stocks were off from one to three points. With the late break in call money and the fall in exchange to about the gold point, prices railled somewhat, but the market closed feverish and irregular.

The active bond issues were weak, but there

were exceptions among high-grade bonds. Total sales at par value were \$1,000,000. United States bonds were unchanged on the last call.

SIXTY AMERICANS CAPTURED.

Confirmation of the Reported Reverse on Marinduque Island.

[Copyright, 1900, by the Associated Press.] MANILA. Oct. 5, via Hong-Hong.-The report of the capture of about sixty men of the Twenty-ninth United States Infantry on Marinduque island is confirmed through communications received by General Mac-Arthur and Rear Admiral Kempff from The Yorktown's relief column landed at | Torrijos, on the Marinduque coast, and fereign selling. An unexpected decrease in the marched to Santa Cruz, which was the proposed route of the captured party, without encountering the enemy or learning anything definite regarding the captives except that they had entirely disappeard. Marinduque is a small island within forty miles of Luzon. It is possible the rebels have conveyed the captives to Luzon.
